The Delegation of Supply Chain Management Powers and Duties

Council has duly delegated the implementation of the Supply Chain Management Policy to the Accounting Officer who is responsible for taking all reasonable steps to ensure that proper mechanisms and separation of duties are in place in the Supply Chain Management System in order to minimise the likelihood of fraud, corruption, favouritism and unfair and irregular practices.

To aid the Accounting Officer in this responsibility, Council has adopted a Delegations of Powers and Duties Policy which assists in maximising the administrative and operational efficiency and is reviewed and updated annually.

Demand Management

Demand Management is an interactive process to determine the demand levels required to meet the municipality's objectives. These objectives are reflected in the municipality's Integrated Development Plan (the 'IDP'), which is a comprehensive strategy document setting out how the municipality intends to address the development challenges in a specific financial year.

The SCM Unit has, with support by the Accounting Officer and the Chief Financial Officer implemented SCM via a Demand Management Plan (DMP) as a strategic tool in order to implement the budget. The DMP assists the SCM Unit with the planning of tender processes and user departments with the planning of the execution and timely completion of projects in alignment with performance targets in the Service Delivery and Budget Implementation Plan.

The Demand Management Plan for the 2018/2019 financial year was approved by the Accounting Officer on 29 June 2018 and was actively promoted and driven to enhance the demand management process in procuring goods and services by means of monthly reporting to budget holders and management involved. The SCM Unit submits reports to the Top Management Team on a monthly basis to measure the success of the implementation of the DMP.

Purchases Section

The Purchases Section is specifically tasked to perform all procurement related functions for the procurement of goods and services with a value up to R 30, 000 as well as the issuance of orders for procurement with higher values.

The total orders issued for the 2018/2019 financial year totaling 8052, has declined in comparison to the 2017/2018 financial year where the total amount of 8510 orders were issued.

The following table illustrates the amount of orders being managed (issued) by the Purchasing Section during the 2018/2019 financial year.

Accredited Suppliers Database

In terms of Paragraph 14(1)(a) of Council's Supply Chain Management Policy, the Accounting Officer is required to keep a list of accredited prospective providers of goods and services (supplier database). In terms of the municipality's legislative requirement, interested suppliers were requested to register on the database. Current suppliers are requested on a yearly basis to update their registration information.

There are currently 4, 881 accredited suppliers registered on the supplier database, which constitute an increase of 373 suppliers from 2017/2018. The reason for the increase of the suppliers on the supplier database was due to the fact that suppliers that are registered on the Central Supplier Database (CSD), that we are conducting business with were requested to register on our supplier database. Many initiatives are conducted annually in order to assist suppliers with the completion of SCM database forms and to register on CSD, with the assistance of the Directorate: Economic Development and Tourism.

Bid Committee System

The Bid Committee system for competitive bids has been actively applied within the municipality. The bid committee system includes a Bid Specification - , Bid Evaluation – and a Bid Adjudication Committee.
