6. Background/Discussion

Background

In terms of a request received from the Provincial Roads and Transport Department dated 17 August 2015, municipalities are requested to submit their estimates for expenditure on proclaimed roads for the financial year 1 July 2016 to 30 June 2017. The categories of expenditure include general maintenance, reseal and construction.

The Provincial Roads and Transport Department emphasized that limited funds are available for road works and requests should be limited to essential maintenance and improvement work. The subsidy application is considered with

the understanding that 80% of the funds required are subsidised by Province, and the balance of 20% is funded by the municipality.

The main roads through Hermanus and Gansbaai respectively are classified as proclaimed main roads and therefore qualify for the subsidy. During the current financial year an amount of R114 000 (80% of R142 500) has been allocated to Overstrand for maintenance of these roads.

Discussion

All surfaced roads in the Overstrand are evaluated every 2 years in terms of both surfacing and structural conditions through our Pavement Management System (PMS). In terms of the 2015 PMS assessment, the provincial main roads are in a good condition.

It is anticipated that normal maintenance (pothole repairs, road-marking, kerbs etc.) will increase compared to previous years and therefore additional funding will be required. The total expected expenditure for the maintenance of the provincial roads is expected to be R253 221.00 which implies a subsidy application for the amount of R202 577.00.

ESTIMATES OF EXPENDITURE ON PROCLAIMED MAIN ROADS : FINANCIAL YEAR 1 JULY 2016 TO 30 JUNE 2017

In accordance with the requirements of section 43 of the Roads Ordinance, 1976 (Ordinance 19 of 1976), Municipalities are hereby requested to submit their Estimates on Roads expenditure for the financial year 1 July 2016 to 30 June 2017 to this Branch, no later than 31 October 2015. A copy of your Council's Resolution, approving this estimate, must accompany your request.

When formulating Main Road estimates, it should be noted that limited funds are available for road works and therefore estimates should be limited to essential maintenance and betterment works, works that is currently being done or works that can no longer be postponed. Capital works should be fully motivated. Specific detail pertaining to these capital works should be given and whether final plans and documentation, approved by this Department, are available. This information as well as comments by the Regional Manager must contain adequate detail in order to consider requests of estimates.

The attached schedule for estimates must be completed by the municipality and sent to the Regional Manager for your area. All relevant copies/motivations must be attached to these estimates.
