Survivalist and Micro enterprises may request such payments which may then be made at the discretion of the Municipality. These weekly payments will be reviewed after a period of 12 months of doing business with the Municipality, as it may be assumed that the enterprise will, by that stage be self-sustainable. It is the obligation of the supplier to arrange earlier payments with the creditors department.

¹ SURVIVALIST ENTERPRISES / MICRO ENTERPRISES ARE DEFINED AS FOLLOWS:

Survivalist enterprises are generally defined as businesses set up by people unable to find a paid job or get into an economic sector of their choice. Income generated from these activities usually falls far short of even a minimum income standard, with very little capital invested, virtually no skills training in the particular field and only limited opportunities for growth into a viable business. This category is characterised by poverty and the attempt to survive.

Micro enterprises are very small businesses, often involving only the owner, some family members and at the most one or two paid employees. They usually lack 'formality' in terms of business licenses, value-added tax (VAT) registration, formal business premises, operating permits and accounting procedures. Most of them have a limited capital base and only rudimentary technical or business skills among their operators. However, many micro enterprises advance into viable small businesses. Earning levels of micro enterprises differ widely, depending on the particular sector, the growth phase of the business and access to relevant support.
