¹ SURVIVALIST ENTERPRISES / MICRO ENTERPRISES ARE DEFINED Micro enterprises are very small businesses, often involving only the owner, some family members and at the most one or two paid employees. They usually lack 'formality' in terms of business licenses, value-added tax (VAT) registration, formal business premises, operating permits and accounting procedures. Most of them have a limited capital base and only rudimentary technical or business skills among their operators. However, many micro enterprises advance into viable small businesses. Earning levels of micro enterprises differ widely, depending on the particular sector, the growth phase of the business and access to relevant support.

AS FOLLOWS:

Survivalist enterprises are generally defined as businesses set up by people unable to find a paid job or get into an economic sector of their choice. Income generated from these activities usually falls far short of even a minimum income standard, with very little capital invested, virtually no skills training in the particular field and only limited opportunities for growth into a viable business. This category is characterised by poverty and the attempt to survive.

PART B – SPECIFICATIONS AND PRICING SCHEDULE

19. SPECIFICATIONS

1. INTRODUCTION / BACKGROUND

- 1.1. Tenders are hereby invited for the compilation of a rehabilitation and management plan for the Paddavlei wetland system, Hawston. A key factor of this tender is the investigation of the historic use and function of the Paddavlei and comparing this to the present state of the wetland and its use.
- 1.2. The proposed rehabilitation of the Paddavlei area provides an ideal opportunity to restore some of the lost functionality of the original wetland and to formalise the protection of remnants of the wetland areas. It is however impractical to expect that the full functionality of the original wetland area would be restored to its original condition prior to the construction of the current storm water infrastructure due to residential development that changed the characteristics of our natural areas. It should also be recognised that this rehabilitation work will need to be undertaken in a phased and progressive manner that is responsive to the wetland’s recovery. The rehabilitation also has to be achievable, when assessing the current state of the wetland.

2. SCOPE

The successful bidder must compile a maintenance and rehabilitation plan for the Paddavlei, Hawston. Through the implementation of this plan the following objectives must be reached:

- 2.1. To create a diversity of wetland habitats that would allow the improved wetland ecosystem functionality while being aesthetically pleasing.
- 2.2. The re-instatement of this wetland should restore the ecosystem services of the wetland, the most important of these are flood attenuation, sediment trapping, nitrate removal, erosion control, biodiversity protection, tourism, education and recreation.
- 2.3. The rehabilitation also has to be achievable, when assessing the current state of the wetland.
- 2.4. The service provider will be expected to give written and oral presentations on the status of the report, including a presentation on the final document.
- 2.5. Monthly written reports must be submitted and one progress meeting is to be held in Hawston with the steering committee.
- 2.6. As this tender is for the compilation of a Rehabilitation and Management Plan, two (2) hard copies and two (2) CD’S must be submitted to the Environmental Management Section’s office located on c/o Molteno & Viljoen Street Onrus.
- 2.7. All the advertising cost for the public participation will be carried by the municipality.
- 2.8. The following documentation will be made available to the successful bidder:
 - 2.8.1. Environmental authorization issued for the Paddavlei storm water development.
 - 2.8.2. Basic wetland assessment compiled by Toni Belcher.
 - 2.8.3. Paddavlei Ecosystem Rehabilitation document compiled by the Paddavlei Eco-Group.
- 2.9. The rehabilitation work will need to be undertaken in a phased and progressive manner that is responsive to the wetland’s recovery. Please ensure that these phases are clearly outlined in the document.
- 2.10. By assessing the history of the Paddavlei and the current situation, a management and rehabilitation plan must be drawn up to get the Paddavlei as close as possible to its original condition.

3. GENERAL
