¹ SURVIVALIST ENTERPRISES / MICRO ENTERPRISES ARE DEFINED **Micro enterprises** are very small businesses, often involving only the owner, some family members and at the most one or two paid employees. They usually lack 'formality' in terms of business licenses, value-added tax (VAT) registration, formal business premises, operating permits and accounting procedures. Most of them have a limited capital base and only rudimentary technical or business skills among their operators. However, many micro enterprises advance into viable small businesses. Earning levels of micro enterprises differ widely, depending on the particular sector, the growth phase of the business and access to relevant support.

AS FOLLOWS:
Survivalist enterprises are generally defined as businesses set up by people unable to find a paid job or get into an economic sector of their choice. Income generated from these activities usually falls far short of even a minimum income standard, with very little capital invested, virtually no skills training in the particular field and only limited opportunities for growth into a viable business. This category is characterised by poverty and the attempt to survive.

PART B – SPECIFICATIONS AND PRICING SCHEDULE

17. SPECIFICATIONS

1. INTRODUCTION / BACKGROUND

Currently the Overstrand Municipality (OM) uses the following products from the MicroFocus (MF) product suite in the organisation;

- Micro Focus eDirectory: Directory Services
- GroupWise (GW): Email system
- Micro Focus Filr: Cloud based storage
- Micro Focus Messenger: Chat Service.
- Retain: Email archiving
- Open Enterprise Server (OES): File Services

The municipality is in the process of migrating the MF suite of products to the Microsoft (MS) Office 365 suite of products. The OM has concluded MS Office 365 licensing via an Enterprise Agreement and now seeks to scope, install / implement the products sets as well as to support and train the personnel on its configuration and use to utilise the products to its fullest potential.

The OM seeks a service provider to assess the current municipal ICT environment, structures and systems in order to migrate to a fully MS environment that includes migration from GW Email and Archives to MS Exchange (M365 E3), MS Active Directory (AD), the Office 365 Suite, Files Services (FS), System Center Configuration Manager (SCCM) and Microsoft System Center Operations Manager (SCOM), SharePoint and Intranet scope, design and setup, while ensuring a full implementation of Security covering all aspects of MS to ensure compliance is implemented and maintained. The service provider must also be able to setup, install and maintain the system, provide support and train the staff in the use of systems.

The project is divided into 3 section;

- Phase 1 that requires the Email Migration from GroupWise Email and Archiving to Microsoft Exchange and File Server/Service migration from OES FS to MS FS (Drive Mapping and Data) and Training of MS Outlook. *This must be completed by the **end of June 2020**.*

- Overlapping with Phase 1 implementation of SCCM, SCOM, Security, and SharePoint, WSUS and Application delivery services; Office ProPlus 365, Teams and OneDrive. *This must be completed by December 2020.*
- Phase 2 which can also work alongside Phase 1, of the Intranet scoping and implementation, further enhancements to Device and App management with Intune, implementation and support of SCCM, SCOM, Security / Threat Protection, SharePoint, and Reporting.
- Phase 3 which can also work alongside Phase 1 and 2, of the Azure cloud services and Identity scoping and implementation, Training (user and administrator).

The municipality must migrate its GroupWise Email and File Services as its first priority, and does appreciate that a fair amount of scoping and setup needs to occur before the migration, and therefore asks the service provider to ensure that their project plan takes these timeframes into account.

The intranet requires the service provider to assist in the scoping, design implementation, training and maintenance of the SharePoint intranet sites for the main intranet and the departmental landing pages. The intranet must be modern, conform to best practices, trends and standards, functional and user-friendly in terms of usability, design content and navigation.

The OM has the following main towns that would need to be taken into account for the move to MS 365 E3; Hermanus, Gansbaai, Kleinmond, Onrus, Stanford, *inclusive of their environs*.
