Background

Upgrading of Informal Settlements Programme

The key objective of the **Upgrading of Informal Settlements Programme (UISP)** is to facilitate the structured *in situ* upgrading of informal settlements as opposed to relocation to achieve the following complex and interrelated policy objectives:

**AGENDA of the
Portfolio Committee : Community Services
17 August 2021
(Also the agenda for the Mayoral Committee Meeting : 24 August 2021)**

- **Tenure security** : to enhance the concept of citizenship, incorporating both rights and obligations, by recognising and formalising the tenure rights of residents within informal settlements;
- **Health and Security** : to promote the development of healthy and secure living environments by facilitating the provision of affordable and sustainable basic municipal engineering infrastructure to the residents of informal settlements. This must allow for scaling up in the future; and
- **Empowerment** : to address social and economic exclusions by focusing on community empowerment and the promotion of social and economic integration, building social capital through participative processes and addressing the broader social needs of communities.

Masakhane informal settlement

The informal settlement is in process of being upgraded with 900 serviced sites in terms of the Upgrading of Informal Settlements Programme (UISP) for potential beneficiaries who qualify in terms of the UISP criteria. The original number of serviced sites would have been 1184. Families were relocated from behind the primary school to the site adjacent next to the 900 erven in process of being developed and no development is envisaged on the particular site by Directorate: Infrastructure and Planning.

Consultation

Consultation takes place on a continuous basis with the elected Social Compact for the particular area/project.

Qualifying criteria for the UISP

The following criteria are applicable for participation in terms of the UISP, namely :

- *Households that comply with the with the housing Subsidy Scheme qualification criteria*
- *Households / persons with a monthly income exceeding the maximum income limit as approved by the Minister from time to time;*
- *Households headed by minors, who are not competent to contract in collaboration with the Department of Social Development;*
- *Persons who are not first – time home owners;*

**AGENDA of the
Portfolio Committee : Community Services
17 August 2021
(Also the agenda for the Mayoral Committee Meeting : 24 August 2021)**

- *Persons who have previously received assistance and who previously owned and / or currently own a residential property. Assistance may be considered that access to the benefits of the programme will be considered on a case by case basis to determine the facts;*
- *and the approval of access in accordance with the provisions of the implementation guidelines of the programme; and*
- *Illegal immigrants on the conditions prescribed by the Department of Home Affairs on a case basis.*
- *Persons classified as aged. Aged persons who are single without financial dependants may also apply for subsidisation. Aged persons can be classified as male and female persons who have attained the minimum age set to qualify for government's old age social grant.*

Discussion

Potential beneficiaries

In order to upgrade and formalise the informal settlement, preference must be given to current inhabitants to become beneficiaries in the project. This will ensure that the informal settlement will be eradicated.

The Administration did a survey in the informal settlement between September and November 2019 to ensure that all families residing in the informal area are recorded on the municipal waiting list. A total number of 2067 families were surveyed, which includes a portion of land being invaded behind the primary school in Masakhane.

Relocation/Allocation Order

Potential beneficiaries will be relocated from block A (refer to Annexure C) onto newly developed UISP sites (Phase 1 and Phase 2). This action will ensure that land required for further phases of the UISP project will be cleared and safe for development. The mentioned two phases provide for a number of 405 serviced sites.

The upgrading/development that is indicated as block B on the map (refer to Annexure C) will be partially an in-situ upgrade. Blocks A and B will form phases 3 and 4 of the UISP project.

**AGENDA of the
Portfolio Committee : Community Services
17 August 2021
(Also the agenda for the Mayoral Committee Meeting : 24 August 2021)**

Infrastructure

The beneficiary(ies) will be provided with a serviced site comprising of a wetcore. A wetcore comprises of an ablution facility with a tap. Electricity will also be provided to the site.

Rental agreement

It is recommended that rental agreements be concluded between the Overstrand Municipality and respective potential beneficiaries. The tariff list for 2021/2022 makes provision for normal rental amount of R43.00 (VAT included) per month, which is currently applicable to UISP project at Eluxolweni. A standard rental agreement used in a similar project in Eluxolweni will be considered for the project in Masakhane.

Ownership

The beneficiary(ies) will be offered an opportunity to acquire the site through a subsidy in terms of the Finance Linked Individual Subsidy Programme (FLISP) or fund the purchase price from own capital at market value.

Material

Beneficiaries will have to construct their informal housing units from own resources. The municipality will assist in the relocation process.

Non-participants

Any resident in the informal settlement who is an owner of a property elsewhere in the Overstrand municipal area **will not be** considered for UISP, but be requested to move to his/her original housing opportunity.

9. Comments from other Departments, Divisions and Administrations

Senior Manager: Engineering Services: Mr D. Hendriks – (028) 313 5059

During the 2019/2020 financial year 201 sites had been installed with civil service (water, sewer, storm water and roads). The installation of wet cores of the aforementioned sites commenced during June 2021 and will be completed by 30 September 2021. Phase 2 of the project consist of 204 sites and will be completed in August 2021, followed by the installation of the wet cores which will be completed by December 2021. Phases 3 and 4 which consist of approximately 178 and 317 sites will commence in August 2021 and completion is expected in June 2022. The remainder of 248 sites will be developed in the 2022/23 financial year.
