6. Background/Discussion/Evaluation/Conclusion

Background

The National Government introduced the Finance Linked Individual Subsidy Programme (FLISP) in November 2011. The programme was thereafter

**AGENDA of the
Portfolio Committee : Community Services
5 April 2023
(Also the agenda for the Mayoral Committee Meeting : 24 April 2023)**

amended in April 2012 as set out in the policy for FLISP. An overview of FLISP as set out in the policy is as follows:

One of the objectives of the Government's housing programme is to provide assistance to households who are unable to independently access mortgage finance to acquire a residential property. Typically, these households earn too little to qualify for mortgage finance on the one hand and on the other their monthly income exceeds the maximum income limit applicable to Government's "free basic house" Housing Subsidy Scheme. The particular market segment is generally referred to as the "affordable" or the "gap market".

Hence, the Finance Linked Individual Subsidy Programme (FLISP) provides a subsidy to qualifying beneficiaries who have secured mortgage finance to acquire an existing house, or a vacant residential serviced stand linked to a house construction contract. The objective of the Programme is to reduce the initial mortgage loan amount to render the monthly loan repayment instalments affordable over the loan repayment term and/or to make good any shortfall between the qualifying loan amount and the total product price subject to the conditions of the Programme.

Income Categories:

The FLISP provides for subsidy opportunity to applicants with household income between R3,501 - R22,000 per month, as amended by Human Settlements: MINMEC on 1 April 2022 and communicated by the National Department of Human Settlements on 8 April 2022 (**Refer to Annexure A**).

Those households in the income group R3,501 - R7,000 per month may apply for a serviced site developed as part of the Integrated Residential Development Programme (IRDP), without any charges as a once of subsidy according to the April 2022 amendment of FLISP, "Province will be allowed to construct houses for the FLISP subsidy beneficiaries". The Directorate: Infrastructure and Planning will obtain clarity on the matter from Province and also report to Council.

The 2022 amendment of FLISP also provides for a "Deed of Sale transaction" option, whereby a written agreement can be entered into, in order to purchase a residential property in monthly instalments over an agreed period. The particular option is however in contradiction with Section 164(i)(c)(iii) of the Municipal Finance Management Act no. 53 of 2005 (MFMA), whereby a municipality is not allowed to grant a loan to members of the public.

It was determined from the Department of Human Settlements: Western Cape that consideration can be given for participation in serviced sites project by applicants on the Western Cape Housing Demand Database (WCHDDB)

Portfolio Committee : Community Services

(Also the agenda for the Mayoral Committee Meeting : 24 April 2023)**

exceeding the threshold for FLISP to the amount of R22,000 (monthly gross household income) **(Refer to Annexure B)**.

The particular applicants must be assisted by purchasing an erf at a market related price to be determined by a service provider. The affected applications must however comply with the qualifying criteria set out in this report.

Subsidy Quantum:

In April 2022 the FLISP subsidy quantum has been revised with a minimum subsidy of R30,001.08 and a maximum subsidy of R130,504.70 (Refer to Annexure A). In terms of the policy amendments in 2014 the prescribed maximum property value to the amount of R300,000 has also been removed.

Exemption of FLISP for Provisions of Section 10A and 10B of Housing Act:

It was also agreed that the sales restriction provisions under Section 10 of the Housing Act, 1997 (Act No. 107 of 1997) hampers the successful implementation of FLISP and should not be applied on all properties acquired through a FLISP. However, it was confirmed that the provisions under section 10(B)5 provides an alternative relief and must be applied retrospectively whilst the matter is addressed by means of an amendment to the Housing Act, 1997.

The mentioned sections as per the Housing Amendment Act, 2001 provides for a pre-emptive right for a period of eight years to be registered against the particular property developed with government subsidy in favour of the relevant Provincial Department of Human Settlements. Section 10B(5) of the Housing Amendment Act, 2001 states that, *“An MEC may grant exemption from the provisions of subsection (1), either conditionally or unconditionally, in respect of any dwelling or site to which the provisions of that subsection apply”*.

Purpose of FLISP:

The policy furthermore states that FLISP is available to qualifying beneficiaries who:

- acquire ownership of existing improved residential properties;
- obtain vacant serviced residential stands which are linked to house building contracts with home builders registered with the National Home Builders Registration Council (NHBRC); or
- construct a new residential dwelling through a house building contract entered into with a homebuilder that is registered with the NHBRC, on a serviced residential stand, that is already owned by the beneficiary.

In order to ensure that a proper and effective subsidy application process is implemented and executed, the Municipal Administration posed questions of

clarity to the Director: Project and Subsidy Administration, Western Cape:

Discussion

Qualifying Criteria:

- d. must not have owned fixed property. Current residential property owners will not qualify for a FLISP subsidy. This requirement does not apply to a qualifying beneficiary who only owns a vacant stand acquired through his/her own resources and wishes to make use of a FLISP subsidy to construct a top structure on the same site;

Manager: Property Administration: Anja Le Roux - (028) 313 5623

Chapter 2 of the Municipal Asset Transfer Regulations, 2008, (Regulations to the Municipal Finance Management Act, no. 56 of 2003) deals with the transfer or permanent disposal of non-exempted capital assets (the latter including land and buildings) and stipulates the processes to be followed. However, regulation 4(3)(b) clearly stipulates that the procedures for the transfer or disposal of non-exempted capital assets as stipulated in the said chapter are "*not applicable to the transfer of housing on municipal land and the transfer of municipal land for the poor to beneficiaries of such housing*". This means that where Housing legislation and criteria are applicable to the transfer of the property, it is not necessary to follow a competitive process. However, Council might have to subsidize the land price or costs for services installed where the properties are to be sold for less than market related.
