These weekly payments will be reviewed after a period of 12 months of doing business with the Municipality, as it may be assumed that the enterprise will, by that stage be self-sustainable. <sup>1</sup> **SURVIVALIST ENTERPRISES / MICRO ENTERPRISES ARE DEFINED AS** Micro enterprises are very small businesses, often involving only the owner, some family members and at the most one or two paid employees. They usually lack 'formality' in terms of business licenses, value-added tax (VAT) registration, formal business premises, operating permits and accounting procedures. Most of them have a limited capital base and only rudimentary technical or business skills among their operators. However, many micro enterprises advance into viable small businesses. Earning levels of micro enterprises differ widely, depending on the particular sector, the growth phase of the business and access to relevant support.

**FOLLOWS:**  
**Survivalist enterprises** are generally defined as businesses set up by people unable to find a paid job or get into an economic sector of their choice. Income generated from these activities usually falls far short of even a minimum income standard, with very little capital invested, virtually no skills training in the particular field and only limited opportunities for growth into a viable business. This category is characterized by poverty and the attempt to survive.

1.5 The local content (LC) expressed as a percentage of the bid price must be calculated in accordance with the SABS approved technical specification number SATS 1286: 2011 as follows:

$$LC = [1 - x / y] * 100$$

Where

*x* is the imported content in Rand

## **PART B – SPECIFICATIONS AND PRICING SCHEDULE**

**18. SPECIFICATIONS**

**1. INTRODUCTION**

The Traffic department of the Overstrand Municipality: Protection Services requires the supply and delivery of handheld radios with GPS, extensive digital functions and high quality for communication purposes. Overstrand Municipal Information Technology and Communication Steering Committee have approved a Hytera Digital solution for radio communication on 27 November 2017.

**2. SCOPE**

- 2.1. Overstrand Municipality is in the process to migrate from dual UHF and VHF radio network, to a Hytera VHF digital solution. We already have two repeaters that are IP connect and one site is in stand-alone mode. The portable radios must be fully compatible with a complete Hytera solution which include a smart dispatch software.
- 2.2. Overstrand Municipality includes the towns and rural areas of:
  - 2.2.1. Hermanus
  - 2.2.2. Gansbaai
  - 2.2.3. Kleinmond
- 2.3. Current old equipment:
  - 2.3.1. is no longer supported on the market and not capable of storing and retrieving audio conversation as required;
  - 2.3.2. produces inaudible radio communication between operational seniors, officers and the control room; and
  - 2.3.3. has no fail over capabilities and this poses operational risk and possible total system failure.
- 2.4. Radio communications forms an integral part of the day-to-day operational services in the municipality, especially in departments where such operations are primarily performed in “out of office” situations and centralized command and control is required to ensure cost effective service delivery and on-demand re- action from response units in emergency situations.
- 2.5. The lack of radio reception makes Overstrand Protection Services less efficient and it is a major safety concern for our staff. A lack mission critical communication can result in injury due to staff that is unable to call for help in an emergency situation.
- 2.6. Traffic and Law Enforcement will migrate from an analog UHF network, to digital VHF network, the new radios must be fully compatible with our Hytera solution. One of the slots on Hytera RD 985S repeater will be made available and the second slot are already in use by the Fire and Disaster Management Department. The service provider must assist us with the development of a fleet map.

**3. MAIN PURPOSE**

This is a long term project to migrate from analog to digital two way radio communication. The portable radios must be fully functional on the existing digital VHF network, this solution does not make any provision for gateways, bridges between various operational systems. A fleet map must be develop and the radios must be programmed on the existing frequencies. We will provide the frequencies and will approve the fleet map before programming. The new portable radios must improve our mission critical communications

**4. LOCAL CONTENT**

- 4.1. Preferential Procurement Regulations, 2017 (Regulation 8) makes provision for the promotion of local production and content. Regulation 8.2 prescribes that in the case of designated sectors, where in the award of bids local production and content is of critical importance, such bids must be advertised with the specific bidding condition that only locally produced goods, services or works or locally manufactured goods, with a stipulated minimum threshold for local production and content will be considered.
- 4.2. In terms of legislation, the bidder is required to complete MBD 6.2 included herein. The bidder must confirm the local content of all the listed items in Annexure C of the said document
