#### Departure and Admin Penalty

erf 8183 Hemel en Aarde Estate Hermanus

I am applying to have the 4m north western street building line relaxed by 3.47m to accommodate the existing roofed pergola.

#### Physical Characteristics of the Environment

The proposed changes to the existing residence will have no significant impact on the physical characteristics of the property. The visible portion protrudes 1 meter above the existing 1.4m boundary wall, so the visual impact is minor. No topographical, geological changes will be necessary.

#### Desirability of the proposed utilization.

The proposal to this ERF has been found to be desirable to the owner, and the neighbours have not objected in any way, and the Hemel en Aarde Estate HOA have approved the structure. We consider our request for the departure of the building line to have no negative impact on the environment.

#### Investigation carried out in terms of other laws which are relevant to the consideration of the application.

The property has no restrictions regarding any other laws, including the National Heritage Resources Act

#### Existing planning in the area

The Hemel en Aarde Estate is an upmarket residential Estate and has already been developed, several departures have been approved in this area.

#### Impact of the proposed land development on municipal engineering services.

No impact, as no additional services will be required by the municipality or affected by the addition of the proposed alteration.

02 DEC 2021

Sandpiper Crescent. The total area of the illegal structure is 21.00m<sup>2</sup>, the area of the roofed pergola over the 4.0. Building line is 12m<sup>2</sup>. The cost of construction was R26 771.00 please see provided receipts. The cost applicable to the illegal area that extends over the building line is R15297.71.

The structure is a roofed pergola, the design approved by the Hemel en Aarde Estate HOA, and complies with the Hemel en Aarde Estates strict architectural guidelines. The guidelines ensure that the structure does not detract from or lower the high standard on the Hemel en Aarde Estate. The structure is constructed using the best quality materials.

2 200X200 laminated treated pine support posts

3 220X45 POR treated pine bearers.

6 220X35 POR treated pine trusses.

6 sheets of IBR opaque Polycarbonate roof sheeting secured to the timber purlins using 5X70 mm Hex tek screws.

The pergola ends are neatly covered with top to bottom overlapping bargeboards to minimize potential wind damage, as per Hemel en Aarde Estate HOA requirement. The timber structure is secured to the existing concrete slab with 2X5mm galvanized steel brackets (made by Exclusive Works steel works), with 10 mm rebar pins and epoxy resin.

### Conclusion

The alteration will have no impact on the area or the neighbours', and will not have an impact on any lifestyle of the neighbours.

Therefore, we request that the departure of the lateral building line will be considered for approval.

Yours faithfully
